

BRITAIN'S LEADING
TRAILER MANUFACTURER

INTRODUCING THE IFOR WILLIAMS LM208 'CONVENIENCE STORE'

The LM208 is the largest flat-bed trailer in the Ifor Williams Trailer range and has the capacity to transport 10 portable toilets*. This tri-axle trailer has all the normal robust Ifor Williams Trailer features including:- galvanized steel chassis; sealed-for-life bearings; parabolic leaf spring suspension; phenol-coated ply floor. A spare wheel included as standard.

The trailer is available with handrails (as shown in the image), for the operators' convenience and safety when loading the toilets**.

Alternatively the trailer can be used as a conventional trailer, with or without sides and with its large size the trailer offers great flexibility, including the ability to transport 6m lengths of materials or any large yet relatively light load.

OPTIONS INCLUDE:

- Loading skids 6' or 8'
(Skid storage slots are fitted as standard)
- Aluminium floor
- Recessed lashing points for load restraint
